

Congratulations to the Graduates of SY 2020-2021!

This year's **End of School Year (EOSY)** rites was scheduled within the week of July 12 to 16, 2021. It focuses on the theme: *Kalidad ng Edukasyon Lalong Patatagin sa Gitna ng Pandemya* (Strengthening Quality Education Amid COVID-19 Pandemic) which highlights the efforts of our learners, teachers, and personnel in championing education amidst the public health situation.

Congratulations to all the completers and graduates who made it through this school year. The modular and online learning modalities have been challenging for both teachers and learners but with patience and creativity, and support from parents and community, we were able to brave another academic milestone.

CEM Scholars Graduated from Miriam College

Five CEM staff who were under the **CEM-Miriam College Scholarship Grant** recently graduated with flying colors in the *Master in Education Major in Measurement and Evaluation (MME)* program from Miriam College. MME is a 17-month non-thesis degree which is designed to prepare students for research and academic careers in the fields of education, social sciences, and human services by combining the study of research design, testing and assessment, and evaluation.

The following scholars enjoyed a full scholarship which includes tuition, basic, and miscellaneous fees for the entire duration of the program (January 2020 to May 2021).

Assistant

CEM Joins PSSP Conference

CEM joined the **Pambansang Samahan Sa Sikolohiyang Pilipino (PSSP)** as one of the sponsors in the **2021 National Ginhawa Conference** with the theme: *Ginhawa sa Panahon ng Pandemya: Pag-unawa at Pagtugon sa mga Hamong Dulot ng Pandemya (Ginhawa During a Pandemic: Understanding and Addressing the Challenges of Pandemic)*.

It was held on July 1 to 3, 2021 via MS Teams and was attended by around 210 participants composed of administrators, academicians, psychologists, psychometrician, professionals, parents, and students. **Ms. Luchi Borja-Javier** from the *Test Development Section* is CEM's representative for the event.

This conference aims to give opportunities to share researches and practical experience related to 1) understanding the pandemic as a Filipino experience; 2) models and strategies to enhance growth and development in various aspects of life such as the self, family, community and workplace, and 3) standards on how to look after and promote wellbeing during pandemic.

PSSP is a social and professional organization that aims to spread knowledge about Filipino Psychology to various sector of the society as an interdisciplinary view and approach that is anchored on Filipino culture.

CEM Product feature: CEM K to 12 Achievement Tests

Standardized achievement tests are used extensively in education to determine if students have met specific learning goals. The **CEM K to 12 Achievement** tests are designed to measure student learning in school in the K to 12 setting. These were developed by a team of local content experts and test developers in order to help individual students and institutions identify their specific strengths and weaknesses in particular subject areas and address them accordingly. With this information, teachers can design and employ methods that could help learners enhance their academic performance while schools can make informed decisions for the improvement of their programs and policies. These tests are also important for accountability and documentation purposes. Check out the posters below for more details on these CEM Tests.

What's in it for you?

 **Determine your students' knowledge, skills, and level of performance to:**

- provide correct feedback
- identify specific strengths and areas for improvement
- design exercises to reinforce learning
- devise intervention programs to address learning gaps
- adjust teaching pace and strategies
- monitor progress

 **Evaluate your school's overall and specific performance to:**

- revisit and improve programs and policies
- enrich strong areas and address areas of concerns
- validate instructional programs
- formulate development programs for teaching-learning improvement
- strengthen accountability and documentation
- make sound judgment and decisions

 **Communicate test results to your stakeholders easily using:**

- Individual Student Reports
- Institutional Reports
- Electronic Reports
- Customized Reports

Determine your students' level of proficiency in:
